INTRODUCTION TO FORTH--Knecht, 9.95

Learn to program in FORTH, a powerful, easy-to-learn language which handles numbers and character strings equally well, contains many built-in functions, has data storage limited only by available R/W memory, allows command definitions and executes code 20 times faster than BASIC.

ATARI PILOT FOR BEGINNERS--Conlan, 14.95

Learn to make your computer play music, display colorful moving pictures and do math with this simple easy-to-learn language. This book is designed to let the beginner learn through play and experimentation using programs and concepts oriented toward children and beginning adult users.

**THE BOOK OF ATARI SOFTWARE 1983
Book Company, 19.95**

The most comprehensive inventory of software available for the ATARI, this book includes programs from many companies with each being reviewed for utility, ease of use and quality of documentation. It contains information of special interest to video game players, reviewing games available through 1982.

KIDS AND THE ATARI--Carlson, 19.95

This is an excellent book for both adults and kids, the title notwithstanding, introducing BASIC and programming concepts. Useful both for self-study and classroom applications (it contains teaching hints), it contains 33 clearly-written lessons accompanied by amusing illustrations and helpful examples.

**ATARI TECHNICAL USER'S
NOTES--ATARI, 26.90**

This is a set of technical manuals for ATARI including a hardware manual, and operating system manual and an operating system source listing--very useful to the serious programmer.

YOUR ATARI COMPUTER--Poole, 16.95

One of the most comprehensive books on ATARI computers, this book covers ATARI BASIC (elementary and advanced programming), use of ATARI I/O devices (disk, etc.), ATARI's sound and graphics capabilities, and useful memory locations. It is a great introduction for the beginner and a valuable reference for the experienced ATARI user.

DE RE ATARI--APX, 19.90

Latin for "All About ATARI", this book is an excellent resource and training text for advanced programmers who understand BASIC and assembly language and want a tutorial on the concepts and principles behind the design of the ATARI. Topics include: character sets, player/missile graphics, display list interrupts, scrolling, sound, and DOS, Operating System and ATARI BASIC internals.

**6502 ASSEMBLY LANGUAGE
PROGRAMMING--Leventhal, 16.99**

This book provides comprehensive coverage of the 6502 microprocessor assembly language, giving an extensive range of programming examples from simple memory load loops to complete design projects. The emphasis is on presenting a large number of fully debugged, practical programming examples.

**6502 ASSEMBLY LANGUAGE
SUBROUTINES--Leventhal, 15.95**

This book provides more than 40 common 6502 subroutines, including code conversion, array manipulation, string processing, arithmetic bit manipulation, input, output and interrupts. It describes general 6502 programming methods and discusses common programming errors, as well as identifying the strengths and weaknesses of the 6502 instruction set.

ATARI GRAPHICS--Compute Magazine, 12.95

A collection of articles, some previously unpublished, from Compute Magazine, this book covers such topics as the fundamentals of ATARI graphics, customizing graphics modes, redefining character sets, animation with character and player/missile graphics, advanced graphics techniques, and the GTIA chip.

**ADVENTURE HINT BOOK (ADVENTURE INT'L
ADVENTURES 1-12)--Adams, 7.95**

HELP AT LAST! Having problems with a certain adventure? Can't figure out how to get out of the bog or where the pharaoh's heart is? Clues for these and many other adventure challenges are given in this booklet, designed to help you, but only as much as necessary so as to allow you solve the adventure yourself.

ATARI BASIC REFERENCE--ATARI, 10.95

This is a reference to the commands, statements, functions and special applications of ATARI BASIC. It is not intended to "teach" BASIC, but is useful to periodically refresh the programmer's knowledge of the syntax and operation of BASIC language elements.

ATARI GAMES AND RECREATIONS--Kohl, 14.95

This book has a unique approach to introducing programming to the novice computer user. In the process of learning how to develop his own ideas for computer games, he masters the capabilities of the machine. Examples both simple and complex are provided, along with special sections on the graphics, color and sound features of the ATARI.

THE ATARI ASSEMBLER--Inman, 12.95

This guidebook is designed to lead users with knowledge of BASIC gradually into using the ATARI Assembler cartridge to program in 6502 assembly language. Sketches of the video screen show each stage of entering and executing the sample programs, and step-by-step instructions help the user make the transition from BASIC to the ATARI's own language.

MASTER MEMORY MAP -- 6.95

This book has valuable information for any programmer interested in using the capabilities built into his ATARI computer. It discusses hundreds of important memory locations and gives hints concerning their uses.

**BASIC PROGRAMS FOR HOME FINANCIAL
MANAGEMENT--Goldsmith, 12.95**

This book contains a system of complete programs and documentation for money management, credit control, major asset management and investment analysis. Put your computer to work and give your broker a break!

1ST BOOK OF ATARI--Compute 12.95

A collection of articles previously published in Compute Magazine, this book covers topics of interest to both the new and the experienced ATARI user, including graphics, programming hints, applications and utilities.

2ND BOOK OF ATARI--Compute 12.95

This book is a collection of previously unpublished articles about the ATARI with information and programs on subjects including advanced programming techniques, computer utilities, applications, advanced uses of BASIC, advanced graphics, and game utilities.

APX PRODUCT CATALOG--APX, 2.00

The ATARI Program Exchange was created by ATARI to market software written by users of ATARI home computers. This catalog lists products available through them along with reviews of the software and accompanying documentation. Programs offered range include business applications, education, entertainment and system utilities.

SOME COMMON BASIC PROG.--ATARI, 14.99

This book contains a collection of BASIC programs to perform a variety of common practical tasks such as financial management, mathematical problem solving, plotting and statistics.

THE VISICALC BOOK: ATARI --Beil, 14.95

A resource for VISICALC, a financial spreadsheet and modeling program, this book describes its basic and expanded uses, showing how to build a model and enter data to allow the entrepreneur to answer his "what if" questions about estimates or any other aspect of his business.

ATARI BASIC--Albrecht, 10.95

An entertaining, easy-to-read book with humorous illustrations and examples, this book makes the introduction to ATARI BASIC programming a pleasure. It covers the essentials of the main commands and statements quickly and with a minimum of text.

BOOKKEEPING

Personal Finance by Scitor
This is one of the best general ledger packages we've seen. It is flexible enough to conform to many needs yet simple enough to use that it can be set up by the average person. We've sold hundreds of these for both business and personal applications. You can use one or two drives.

48K Disk \$67.50

The Bookkeeper by Atari
A general ledger system that equals the abilities of very expensive packages for Apple, IBM etc. However, I do not recommend this for someone with limited bookkeeping background. The manual is NOT written for the novice user. Almost impossible to master unless you are a CPA. Can use only one drive.

48K Disk \$133.50

Bookkeeper kit w/touch pad \$219.50

Home Accountant by Continental
New for the Atari so I can't say much about it. Already out on other computers and suppose to be good on them.

48K Disk \$67.50

Household Finance by Creative
With this fine package you can record and analyze your monthly income, expenses and budget in sixteen categories. Ideal for home use.

32K Tape or Disk \$26.90

DATA BASES

DATA PERFECT by LJK
The most powerful of the data base programs, but not the easiest to use. However, they have improved the manual so that now it can be understood. Expect to spend several hours learning to use this most powerful program.

32K Disk \$119.50

FILEMANAGER 800+ by Synapse
This has been one of the more popular of the data base programs for the Atari. Not real easy to understand but not too bad. Good manual and user friendliness.

40K Disk

SUPER DATA by Royal Software
One of the better data base programs and the only one with double density capability and 80 column viewing without special hardware.

48K Disk \$99.95

FILE-FAX by tmq software
A new entry into the data base market. It looks like it may be a powerful one by looking at their claims.

48K Disk \$129.00

HOME FILING MANAGER by Atari
A simple and easy to use filing system to keep information such as what you could but on 3x5 file cards. Search and Sort abilities are good.

16K Disk \$44.90

FILE-IT 2 by Swift Software
An inexpensive file system that handles simple filing needs with ease.

24K Disk \$44.50

LANGUAGES

ATARI ASSEMBLER by Atari
The assembler we recommend for your first venture into assembly language programming. There are more powerful assemblers but none have more books and tutorials written about them than this one.

Cartridge \$49.50

ATARI BASIC by Atari
The ideal programming language for the beginning programmer. Lots of books have been written on its use. By using a compiler on this basic it can be SUPER CHARGED to run up to 12 times faster!!

Cartridge \$47.20

Programmer Kit w/2 books \$54.60

ABC COMPILER by Monarch
This is the best compiler I've used. It speeds up the execution of your basic program from 4 to 12 times. Some commands are not supported so you may have to make some modifications to your program.

32K Disk \$69.50

BASIC A+ by OSS
An advanced Basic language with many additional command words for improved programming. Greater control of graphics with this one. You can transfer your existing Basic programs to run under A+.

32K Disk \$68.00

BASH by Computer Alliance
A half way step for the basic programmer. You use your basic knowledge but end up with programs that execute up to 100 times faster than standard basic. This is not a true compiler however, you cannot compile existing basic programs. In some applications this would be a terrific language.

32K Disk \$87.50

BASIC COMPILER by DataSoft
Another basic compiler to use on existing basic programs. It does not support many existing basic commands without doing some modifications.

32K Disk

BASIC COMMANDER by MMG
A programming aid that allows you to have additional commands such as renumber, block delete, autonumber, programmable keys and some DOS functions.

16K Disk \$34.95

BASIC DEBUGGER by MMG
A programming aid that allows you to TRACE your program, scroll over your program listing, list variables and a search mode.

16K Disk \$34.95

DATASM 65 by DataSoft
This assembler feature an PIE screen editor, 12K text buffer, a monitor, and executes very fast. Unfortunately, it also has so many drawbacks that an assembly language programmer would do well to look elsewhere for a good assembler.

48K Disk, \$79.90

LISP 2.0 by DataSoft
Artificial intelligence for the ATARI. Includes global replace, pretty printer, and an editor that supports a hashing scheme on file load. Contains over 95 extended LISP commands.

48K Disk,

MAC/65 by OSS
A very strong, complete assembler package. The editor and assembler reside in memory, and there is a separate debugger that can be resident. The assembler is very fast and the debugger is the best on the market. The only drawback about this program is that the documentation could have been better, but is still satisfactory for experienced users.

32K Disk, \$72.00

THE MONKEY WRENCH II

MONKEY WRENCH II Cartridge \$54.00
A very good programming aid to use with Atari Basic. Goes into the right slot of the 800 computer and gives you 16 additional commands. I use it a lot and find it very helpful.

DATASM 65 by DataSoft
This assembler feature an PIE screen editor, 12K text buffer, a monitor, and executes very fast. Unfortunately, it also has so many drawbacks that an assembly language programmer would do well to look elsewhere for a good assembler.

48K Disk, \$79.90

LISP 2.0 by DataSoft
Artificial intelligence for the ATARI. Includes global replace, pretty printer, and an editor that supports a hashing scheme on file load. Contains over 95 extended LISP commands.

48K Disk, \$112.00

MAC/65 by OSS
A very strong, complete assembler package. The editor and assembler reside in memory, and there is a separate debugger that can be resident. The assembler is very fast and the debugger is the best on the market. The only drawback about this program is that the documentation could have been better, but is still satisfactory for experienced users.

ZORK 1

Zork 1: The Great Underground Empire confronts you with perils and predicaments ranging from the mystical to the macabre, as you strive to discover the Twenty Treasures of ZORK and escape with them and your life.

This is an excellent adventure game that understands over 600 words! And understands complete sentences too!! It also has a save game feature and you'll need it on this one as the average completion time is 35 hours. We've had a lot of good comments from our "Adventure" customers on this game and it's follow up adventure ZORK II.

MACRO ASSEMBLER by Atari
This is an assembler for the serious programmer. It is more powerful than the Assembler Editor cartridge but not as well documented. Also, available on disk only. The assembler is extremely fast and has a complete set of pseudo-ops and has a complete macro facility.
\$79.10

MICROSOFT by Atari
This is a powerful version of Basic with better string handling ability and faster math calculations. It's quite complete, supporting all of the Atari's sound and graphics abilities.
\$79.10

PAGE 6 by Synapse
This is a collection of twelve short machine language subroutines that reside on page six of memory. You call them from your Basic program. Some are programming aids.
\$31.50

PILOT by Atari
A language that is popular with grade school teachers as it is easier to understand and use by children.
\$69.50

PASCAL by APX
This version requires two disk drives to use it, but other than that it is OK.
\$49.95

SYN Assembler by Synapse
This is one of the better assemblers we've tried. Very powerful and a good one for the experienced assembler programmer. Not much documentation.
\$44.50

VALFORTH by Val Par
This has been one of our most popular languages. It runs many times faster than basic yet is much simpler to learn than assembly. This is definitely a good choice for someone looking for a language that is more powerful than Basic.

32K Disk \$133.50
Cartridge \$175

ATARIWRITER by Atari
A very good word processor if you are using an Atari printer. Poor printer access to other printers however.
Cartridge \$87.90

TEXT WIZARD by Datasoft
A good word processor with many advantages. Works best with Atari printers but weak with other types. You can use the dictionary programs with this one to check your spelling.
32K Disk

SPELL WIZARD by Datasoft
This spelling dictionary program has 30,000 words in it and it is expandable. You can use it to check the spelling in your data base records if they use Atari DOS.
32K Disk \$.

BANK STREET WRITER by Broderbund
A good childrens word processor. Liked by grade school teachers to introduce students to word processing. Simple and easy to use.
32K Disk \$71.50

WORDPROCESSOR by Elcomp
A nice cartridge processor for doing simple word processing and editing. Good ability for the price.
Cartridge \$69.50

TERMINAL PROGRAMS

Telelink II by Atari coming

TeleCom by Roklan 24K D \$59.90 RC805 (coming)

Tele-Talk by DataSoft 32K D \$44.90

This machine language smart terminal includes features such as a variable BAUD rate, full or half duplex, uploading and downloading, a cash clock, and more. It will also allow DOS functions and disk access. This is a powerful terminal program.

TeleTari by Don't Ask 32K D \$35.10

This smart terminal is written in Basic, but don't let that put you off - it's good! It is menu driven program that has up to a 20K buffer, is compatible with 1200 BAUD modems and an 80 column board. It also features uploading, downloading, variable BAUD rate, etc. This is probably the most versatile program available.

Smart Terminal by Binary 16K T \$44.90
Smart Terminal by Binary 16K D \$44.90

This program allows uploading, downloading, 300 or 1200 BAUD, and DOS access. This also has the advantage (for some) of being available on tape.

Master Type

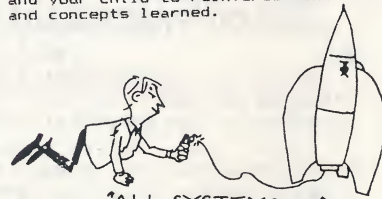

Players learn to type as they battle attacking enemy words in an exciting HI-RES game.

Asteroid Miners

A unique game tutorial: race against time to collect the asteroids, then discover the secrets behind the sound and animated graphics in the manual which explains every line of the program.

Sammy the Sea Serpent

As he listens to the story told by the narrator and, using the joy stick, helps Sammy the Sea Serpent find his way home to the sea, your child will develop listening and motor skills. Accompanying literature suggests activities for you and your child to reinforce the skills and concepts learned.

ARCADE SIMULATIONS

ATARI INC.

Asteroids BK C \$29.70 AT207

A so-so version of the arcade classic. There are 32 different variations as you must destroy boulders and spaceships before they hit you.

Centipede 16K C \$39.50 AT217

A good adaptation where you must blast centipedes, spiders, fleas, and scorpions.

Defender 16K C \$39.50 AT227

A very good adaptation. You must destroy the landers before they steal your people. Also features the bombers, pods, baiters, smart bombs, etc.

Dig Dug 16K C \$39.50 AT237

Another very good job of translating the arcade version. You must uncover the precious vegetables in the soil, but look out for the Fygar and Pooka.

Donkey Kong (June) 16K C \$? AT247

Galaxian 16K C \$39.50 AT247

Lots of colors and action as you try to destroy the Galaxians, emissaries, drones, and infantry. 10 different levels.

Missile Command BK C \$29.70 AT257

Protect six major cities against the incoming ICBM missiles, smart bombs, satellites and bombers. This one's been out a while, but is still very enjoyable.

Pac Man 16K C \$39.50 AT267

The classic arcade game. Gobble dots and stay away from the ghosts, or eat an energy dot and chase them. A very good translation.

An invaders game, but if you want an exact copy of the arcade game, get Deluxe Invaders from Roklan.

ADVENTURE INTERNATIONAL

Preppie 16K T \$26.90 AI300

Preppie 32K D \$26.90 AI305

Very similar to Frogger. I actually like this version better because of the superior graphics and color.

Sea Dragon 16K T \$31.50 AI310

Sea Dragon 32K D \$31.50 AI315

An undersea version of Scramble. Very good, written by the Preppie author.

Stratos 16K T \$31.50 AI320

Stratos 32K D \$31.50 AI325

A very fancy version of Missile Command. Many different aliens attacking your city, trying to break thru the shield.

ARCADE-PLUS

Ghost Hunter 16K T \$29.95 AS300

Ghost Hunter 16K D \$34.95 AS305

One of the best Pac-Man games ever. So good, Atari made the company take it off the market. When these are gone, we can't get any more. I especially like the option that has 2 players on the screen at the same time. 16 different mazes.

BINARY SOFTWARE

Star Island 16K T \$29.60 BS300

Star Island 16K D \$29.60 BS305

This does not have quite as many things going on, but if you like Star Castle, this is the best version available.

BIG FIVE

MINER 2049er 16K C \$44.90 BF307

So far, this has been the hottest game of 1983. Similar to Donkey Kong, but I like this version better! Every screen has something different, from slides to transporters, to the cannon. 10 different screens, great graphics, and good sound. Very challenging.

BRODERBUND SOFTWARE

Apple Panic 16K T \$26.90 BB300

Apple Panic 24K D \$26.90 BB305

Very similar to Space Panic in the arcades. You must climb ladders and dig holes for the apples (Atari owners chance for revenge) that are chasing you. Once they fall in the hole, you must must cover them up to kill them.

O'Rileys Mines 16K D \$31.50 DS325
A slightly different version of Dig Dug.

Moon Shuttle 16K T \$31.50 DS200
Moon Shuttle 32K D \$31.50 DS205

Manuever your Moon Shuttle though man-o-wars, meteors, bomb launchers, and expanos to confront the Prince of Darkness.

Pacific Coast Hwy. 16K T \$26.90 DS330

Pacific Coast Hwy. 16K D \$26.90 DS335
Another version of Frogger. This one has the advantage of being able to have 2 players on the screen at the same time.

Shooting Arcade 16K T \$26.90 DS340
Shooting Arcade 16K D \$26.90 DS345

This doesn't have all the intricacies of the arcade game Carnival, but is the closest version available for the Atari.

Tumble Bugs 24K D \$26.90 DS335

This version of Pac-Man is unique because it magnifies the part of the screen where you are. A very interesting effect.

A most interesting game with many hours of fun. Thirty different screens of challenging action (including one where you only view the screen as you move through it!) make this a Top-Notch Entertainer!!! The concept is similar to Miner 2049er or Donkey Kong, but is much more involved.

PRISM COMPUTERS (STEDEK)

Galactic Chase 16K T \$22.45 PC300
Galactic Chase 16K D \$26.90 PC305

Very close to Galaxians. The only real advantage is the price.

QUALITY SOFTWARE

Jeepers Creepers 32K T \$26.90 QS300
Jeepers Creepers 32K D \$26.90 QS305

Loosley based on Amidar, you must fill in the squares on the grid with bees chasing you. You can accumulate jumps and can release bee-eating beetles. This is a unique game that is very enjoyable.

ROKLAN CORP.

Deluxe Invaders 16K D \$31.50 RC305
Deluxe Invaders 16K C \$35.10 RC307

If you want the best version of Space Invaders available, this is it. Just like the arcade version.

GORF 24K D \$35.10 RC205
GORF 16K C \$39.90 RC207

Fight your way through Astro Battles, Laser Attack, and Space Warp to confront the Flag Ship as this is really four games in one.

Wizard of Wor 32K D \$35.10 RC215
Wizard of Wor 16K C \$39.90 RC217

Descend into the everchanging Dungeons to battle both visible and invisible monsters. If you do too well you'll have to confront the Worlockor even the Wizard himself. A very nice feature of this game is that it is possible to play 2 players simultaneously.

SIERRA-VISION (ON-LINE)

Frogger 16K T \$31.40 SV200
Frogger 32K D \$31.40 SV205

Guide your frog across the highway and then the water. Good graphics and sound (disk only) in this arcade translation.

Mouskattack 32K D \$26.90 SV315

Still another Pac-Man game. You must plumb the maze by laying pipes as you go, but there are three giant mice chasing you. One of the most difficult versions around.

Jawbreaker 16K T \$26.90 SV300

Jawbreaker 16K D \$26.90 SV305

Another Pac-Man game and possibly the best. You are a set of teeth that must eat all the life-savers in the maze, while smiley-faces chase you.

Threshold 40K D \$35.10 SV325

This is like the arcade game AstroBlaster. There are so many different aliens, I don't know anyone that has seen them all. Very good graphics and a very challenging and entertaining game.

ADVENTURE INTERNATIONAL

These adventures provide a description of a situation and the adventurer must figure out a two word response. You will encounter everything from dragons to a sabotaged nuclear reactor. These adventures will provide days of challenge, fun and frustration. A beginning adventurer should try #1 or #2. My favorite of the set is #8 (Anybody figure out how to kill the Purple Worm?).

Deadline (2 disks) 32K D \$44.90 IC145
A murder mystery in which you have but 12 hours to solve one of the cleverest, most baffling crimes ever. The thing that is unique about this adventure is that the characters possess independent personalities, some so treacherous, that should you make the wrong move, they may do you in!

Suspended 32K D \$44.90 IC155
You manipulate six robots, each with a different perception of the underground computer network you find yourself in. By using the robots, you can essentially be six places at once. The other unique feature of this adventure is that the game is designed so you can alter conditions before starting, allowing you to customize the program into a new adventure!

These are absolutely the best text adventures available for the Atari computer. They will accept complete sentences and multiple commands. These programs are endowed with a delightful sense of humor, but are difficult enough to keep you going for days and days (months and months?). All are excellent and I would highly recommend any of these. Well worth the ZORKMIDS.

Journey to the Planets is the third in the series, but in this one you find yourself on an alien planet, and must use your spaceship to explore seven planets (several screens each) and bring the treasures back so the aliens will let you go home.

These are some of the best action adventures written. Sometimes getting the treasures and finishing the rooms simply requires quick reflexes, and sometimes you must figure out the puzzle. Action Quest is a good one to start with to get an idea of what to do. None of them are easy!

COMPANY POLICES

I. ORDER LINE - 1-800-452-8013

This line is strictly for orders. We're just not equipped to give information, return authorizations, or anything else on this line, so please don't even try. For anything other than orders, please use our information line.

II. INFORMATION LINE - 1-503-683-5361

We'll be glad to talk to you all day on this line. This line is for everything other than orders. Information, prices, and everything else will gladly be given.

III. PRICES

Because of supplier price changes, our prices are subject to change without notice. Please call 1-503-683-5361 for price information and quotes, if needed.

IV. METHODS OF PAYMENT

1. VISA or MASTERCARD - No additional charge for software credit card orders, however the discount price is slightly higher on some hardware items.

2. PERSONAL CHECK - We do accept personal checks, unfortunately, there will be a short delay in shipping your order since we have to wait for your check to clear the bank.

3. MONEY ORDERS - We process money orders the same day we receive them.

4. C.O.D. - Will be processed the same day, however, there will be a charge of \$2.50 in addition to the standard charge.

V. SHIPPING

We pride ourselves on prompt service, so unless an item is back ordered, it will go out the same day we receive your order!

1. On software there is a standard \$2.00 per order regardless of the number or items ordered. Orders are shipped U.P.S. or 1st class mail, whichever is better.

2. Blue Label Air is also available for only \$3.90 and U.P.S. guarantees to get it to you within 2 working days.

3. C.O.D. is shipped U.P.S. only and there is a \$2.50 charge in addition to the standard \$2.00 charge.

4. If you're really in a hurry, overnight shipping is also available.

VI. BACK ORDERS

Back orders are filled the same day we receive the merchandise from the manufacturer. We won't charge them to VISA or MASTERCARD until we actually ship them. For information on back orders, call 1-503-683-5361 only. Please don't call the order line since no one there will be able to help you.

VII. RETURN POLICY

***IMPORTANT - Please do NOT call the order line for return authorization. This is given over the information line.

Sorry, we can't exchange programs except under the following conditions:

1. If the program won't load when you receive it, we will gladly exchange it for the same program.

2. If the program crashes at a later time, it must be returned to the manufacturer for repair. We can't exchange it, so if you send it to us it will just take that much longer to get it replaced.

3. If the program is damaged by the carrier (U.P.S. or U.S. Mail), keep all shipping materials and immediately call the carrier. They will take care of all necessary paperwork and insurance. You will then receive another program. **IMPORTANT** - Please don't send the program back to us. If you do, the carrier will not pay the insurance and we can't replace it.

4. If you don't like the program we cannot exchange it, so please be sure you know what you're getting before you order.

VIII. CATALOGS

You will automatically receive an updated catalog if you have purchased from us in the last 6 months. To get on the list you need only order from us.

When you are in Eugene, Oregon, please visit our well-stocked store and talk with our experienced, helpful Atari Experts. We have the largest selection of Atari Software and Hardware in the Northwest! We specialize in Atari... So we know what works best!!!
